

## Correlative Conjunctions

A woman asks a man about what to use to make a website.

**Advanced English - Sound Grammar**

C1 Lesson 12 Conversation 2

**Part 1:** Listen to the conversation and answer the questions.

| 1 | What is the woman's website for? | 2 | What does the man recommend for a simple site? | 3 | Which has more functionality? |
|---|----------------------------------|---|------------------------------------------------|---|-------------------------------|
| a | Her blogs                        | a | Blogger                                        | a | Blogger                       |
| b | Her side business                | b | WordPress                                      | b | WordPress                     |
| c | Her client                       | c | Wix                                            | c | Wix                           |

**Part 2:** Complete the blanks with the words in the column to the right.

|                                                                                    |    |                               |
|------------------------------------------------------------------------------------|----|-------------------------------|
| <b>Woman:</b> What can I _____ website for _____?                                  | 1  | use / a / to / make           |
| <b>Man:</b> _____ Blogger or WordPress.                                            | 2  | business / my / side          |
| <b>Woman:</b> _____?                                                               | 3  | either / would / I / use      |
| <b>Man:</b> It _____ making a simple site _____.                                   | 4  | one / is / Which / better     |
| <b>Woman:</b> Most likely, I'm _____, nothing fancy, _____, at least.              | 5  | whether / are / you / depends |
| <b>Man:</b> Then, _____.                                                           | 6  | complex / a / site / or       |
| <b>Woman:</b> _____?                                                               | 7  | site / simple / a / making    |
| <b>Man:</b> Both _____, but WordPress _____.                                       | 8  | with / to / begin             |
| <b>Woman:</b> Well, I'm not sure _____ will need to add things. Should _____ then? | 9  | use / I / Blogger / would     |
| <b>Man:</b> Yes. If you're _____ you'll _____, I'd go with WordPress.              | 10 | cheaper / is / Which / one    |
| <b>Woman:</b> OK, I'll _____.                                                      | 11 | free / are / them / of        |
|                                                                                    | 12 | has / functionality / more    |
|                                                                                    | 13 | not / I / whether / or        |
|                                                                                    | 14 | with / I / go / WordPress     |
|                                                                                    | 15 | sure / not / whether          |
|                                                                                    | 16 | things / add / not / or       |
|                                                                                    | 17 | WordPress / go / then / with  |

## Answer Key

### Correlative Conjunctions

A woman asks a man about what to use to make a website.

**Advanced English - Sound Grammar**

C1 Lesson 12 Conversation 2

**Part 1:** Listen to the conversation and answer the questions.

| 1 | What is the woman's website for? | 2 | What does the man recommend for a simple site? | 3 | Which has more functionality? |
|---|----------------------------------|---|------------------------------------------------|---|-------------------------------|
| a | Her blogs                        | a | <b>Blogger</b>                                 | a | Blogger                       |
| b | <b>Her side business</b>         | b | WordPress                                      | b | <b>WordPress</b>              |
| c | Her client                       | c | Wix                                            | c | Wix                           |

**Part 2:** Complete the blanks with the words in the column to the right.

|                                                                                                                    |    |                               |
|--------------------------------------------------------------------------------------------------------------------|----|-------------------------------|
| <b>Woman:</b> What can I <b>use to make a</b> website for <b>my side business?</b>                                 | 1  | use / a / to / make           |
| <b>Man:</b> I would use either Blogger or WordPress.                                                               | 2  | business / my / side          |
| <b>Woman:</b> Which one is better?                                                                                 | 3  | either / would / I / use      |
| <b>Man:</b> It depends whether you are making a simple site or a complex site.                                     | 4  | one / is / Which / better     |
| <b>Woman:</b> Most likely, I'm making a simple site, nothing fancy, to begin with, at least.                       | 5  | whether / are / you / depends |
| <b>Man:</b> Then, I would use <b>Blogger.</b>                                                                      | 6  | complex / a / site / or       |
| <b>Woman:</b> Which one is cheaper?                                                                                | 7  | site / simple / a / making    |
| <b>Man:</b> Both of them are free, but <b>WordPress</b> has more functionality.                                    | 8  | with / to / begin             |
| <b>Woman:</b> Well, I'm not sure whether or not I will need to add things. Should I go with <b>WordPress</b> then? | 9  | use / I / Blogger / would     |
| <b>Man:</b> Yes. If you're not sure whether you'll add things or not, I'd go with WordPress.                       | 10 | cheaper / is / Which / one    |
| <b>Woman:</b> OK, I'll go with <b>WordPress</b> , then.                                                            | 11 | free / are / them / of        |
|                                                                                                                    | 12 | has / functionality / more    |
|                                                                                                                    | 13 | not / I / whether / or        |
|                                                                                                                    | 14 | with / I / go / WordPress     |
|                                                                                                                    | 15 | sure / not / whether          |
|                                                                                                                    | 16 | things / add / not / or       |
|                                                                                                                    | 17 | WordPress / go / then / with  |
